Joint Threat Memorandum

Attached for your personal use and information is a copy of the published version of the threat memorandum jointly prepared by the Agency and DIA, drawing on inputs from our Vietnam Station and COMUSMACV, in response to the request levied at the 20 June WSAG meeting. Copies have already been sent to all the WSAG principals, to Secretary Laird, and to DIA.

Would you please convey through Admiral Whitmire our great thanks and appreciation to [REDACTED] and his associates who worked on this project. Without their helpful contributions and splendid cooperation, the very tight deadline simply could not have been met. Because of their help, however, we were able to produce a truly joint project that should be of considerable value to its high level consumers.
